

7-10 May, 2024

MADRID, SPAIN

ISSVA World Congress 2024: The Latest in Vascular Anomalies

Welcome to the ISSVA World Congress 2024!

The International Society for the Study of Vascular Anomalies (ISSVA) will host the ISSVA World Congress 2024: The Latest in Vascular Anomalies (formerly the Workshop), in the vibrant city of Madrid, Spain. The Congress will take place from 7-10 May 2024. Madrid is an exceptional location for this World Congress, offering a blend of rich history, culture, and modernity. It will be an exciting opportunity for professionals in the field of vascular anomalies to gather and exchange knowledge, underscoring the importance of global collaboration and innovation in addressing vascular anomalies.

The Scientific Program will be a venue to present the latest advances in research and science in vascular anomalies. It will also feature an introductory Primer course and interesting cases that attendees can participate in to increase their knowledge in the fundamentals and advanced topics in the field. The ISSVA World Congress 2024 will provide a multidisciplinary forum for many specialties including, but not limited to, interventional radiologists, dermatologists, plastic surgeons, otolaryngologists, oncologists, pediatricians, pediatric surgeons, hematologists, and pathologists and affiliated disciplines like nurse practitioners.

The ISSVA World Congress 2024 will be held in a hybrid in-person / virtual format. We invite you to participate in this global congress as a sponsor to be a part of this network and growing trend of knowledge sharing through oral presentations, difficult cases, and poster sessions.

Our 2020 virtual meeting had over 80 oral presentations and more than 125 posters. In 2022, our hybrid in-person/virtual meeting in Vancouver provided our delegates the opportunity to hear 97 oral presentations and view 240 posters. We expect the Congress in Madrid to surpass these figures and hope you decide to be a part of this important meeting.

We look forward to your participation to make this meeting a success!

Francine Blei, MD
ISSVA President

Leo Schultze Kool, MD
ISSVA Meetings Committee Chair

About ISSVA

The International Society for the Study of Vascular Anomalies (ISSVA) is a multidisciplinary international society of physicians, scientists, and health care providers united by an interest in vascular anomalies. The Society aims to promote the highest standards of care for patients with vascular anomalies by advancing clinical and scientific knowledge concerning causes, diagnosis and treatment, and by education of physicians, health care providers, patients and the community. The Society encourages the free flow of information between its members and interested groups, through meetings and teaching programs, and by the dissemination of a classification scheme and pertinent scientific data.

About the World Congress (formerly the Workshop)

The International Society for the Study of Vascular Anomalies (ISSVA) is the formalization of prior biennial international workshops, which were started in 1976. Over time, the ISSVA workshops grew to the point of gathering hundreds of international specialists of various medical disciplines involved in the treatment of patients afflicted with vascular anomalies. These biennial workshops, which eventually evolved into the World Congress, have fostered time proven personal contacts, collaboration, and informal exchange of scientific knowledge concerning vascular anomalies.

Exhibition***

Exhibiting at the ISSVA World Congress 2024 is a great way to expand your company's branding and product awareness. ISSVA is offering tabletop exhibits (table, two chairs, pipe and drape) for groups interested in building their own exhibition booth, please contact us at info@issva.org for further details. Each booth registration comes with two exhibitor registrations (*inclusive of session attendance*).

- Industry exhibitions: \$5,000
- Non-profit organizations such as patient advocacy groups: \$550

Don't see what you're looking for? Email us to discuss individual opportunities for sponsorship: info@issva.org.

Unrestricted Medical Educational Grants

We are happy to work with your company or organization to submit and apply for an unrestricted medical education grant. We wish to thank and recognize all supporters of our meeting through an educational grant by recognizing their support on the meeting website.
